

## **Historic, Archive Document**

Do not assume content reflects current scientific knowledge, policies, or practices.

NOTE—THIS price list is issued with the idea that the experienced Florida trucker needs no explanation, pictures or description, as we know they are familiar with the standard varieties of seeds, and accordingly we have tried to place before them our prices in the most convenient manner possible. Our many years of experience in the seed business in Florida enables us to handle your orders to advantage. We have one of the largest stocks of selected and tested seeds in the South, and we are prepared to give you quick service, and handle your orders to advantage as to price and quality. We anticipate a very busy spring season for 1930, and suggest you place orders as early as possible.

E. A. MARTIN SEED CO.  
By E. A. Martin.

# E. A. MARTIN SEED CO.

Established 1875

"Oldest Established Seed House in Florida"

## SEEDS

Spring 1930 Price List  
No. 16-E

OFFICE:  
202-206 EAST BAY ST.,  
Corner Newnan

WAREHOUSE  
FOOT NEWNAN STREET

JACKSONVILLE, FLORIDA

Cow Peas, Velvet Beans, Peanuts, Sorghum, Millet, Goobers, Beggarweed, Soy Beans, Seed Corn, Chufas, Sweet Potatoes, Grass Seed, Egyptian Wheat, Seed Rice, Cotton Seed, Artichokes.

We carry a complete line of all Farm, Field and Garden Seed and conduct a series of experiments and tests on our Roseland Farm which enables us to supply the Farmer of the South with the best and most productive crops. Our seeds are all of the Hy-Test Germination, and we take every precaution in filling your orders, which means we give you personal attention.

READ THIS—These seeds are all grown especially for us, and are fresh, genuine and reliable. We handle no commission seeds. Seeds of the best quality often fail to germinate by reason of improper planting, weather conditions, etc.; in fact, most failures are from disregard of necessary conditions, and since these conditions are so varied and so far beyond our control it is impractical for us to in any way guarantee crop results, and while we exercise every care in reason, we give no warranty, express or implied, as to description, quality, productiveness or any other matter of any seeds, and will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms, they are at once to be returned. MARKET GARDENERS or other large planters, requiring larger quantities of seeds than are here offered, are invited to write us for Special Prices, and must be sure to state Varieties and Quantities they will want.

**CROTOLARIA, VELVET BEANS, SOY BEANS AND MUNG BEANS**

Our Special Price List on Velvet Beans, Soy Beans, and Cow Peas will be ready in a few days. Write for it.

	5 Bu.	Bu.	Peck	Qt.
Bush Velvet Beans				35c
Early Speckled Velvet Beans				25c
Osceola Velvet Beans				25c
Late Speckled Velvet Beans				35c
Soy Beans, Mammoth Yellow				35c
Mung Beans				Pound 25c; 4 lbs. (to plant one acre) 90c
Crotolaria				50c

**VELVET BEANS**

We strongly urge our customers to make liberal seeding of VELVET BEANS, owing to their cost of planting being so economical as compared with other legumes.

A crop of three tons will add as much nitrogen to the soil as a ton of Cotton Seed Meal, while the amount of humus will be three times as great. We can supply Velvet Beans from one peck to a carload.

**EARLY SPECKLED OR 90-DAY VELVET BEANS**

It is the quickest growing and earliest maturing of the Velvet Beans, and is well adapted for growing in districts farther North than Velvet Beans ordinarily have been grown.

We can supply INOCULATING CULTURE for Cow Peas, Velvet Beans, Soy Beans, Peanuts and Beggardweed. Prices: 1 Bu. size.....60c 2 Bu. size.....\$1.00 5 Bu. size.....\$2.25

Write for special leaflet.

Velvet Beans are being planted extensively this season on account of the difference in price between Velvet Beans and Cow Peas. The BUSH Velvet Beans are springing into prominence for planting in Citrus Groves. They have proven very desirable and practical for this purpose. Order Velvet Beans as early as possible.

**FIELD SEED**

**PASTURE CROPS CUT THE FEED BILLS**

We do not know of a State that is so well adapted to grow pasture or green food as Florida and while the high prices prevail on hay and other feed commodities, we strongly urge our customers to sow liberally of grain and grasses that they might have sufficient pasturage for their stock, as well as an abundant cutting of hay.

**FIELD CORN**

Our Field Seed Corn is Southern Grown and is selected entirely from a seed standpoint. We know both from our own experience and that of our customers, is the most productive kinds in cultivation.

The corn in Florida has grown to be a very important factor. We call particular attention to our **Yellowstone Prolific Corn**

Martin's Improved Cuban Yellow Flint	4.50	1.25	35c	20c

All selected and graded for seed purposes.

**SEED CORN**

**MARTIN'S YELLOWSTONE PROLIFIC**

**YELLOWSTONE PROLIFIC:** New and listed only by us. This was produced through many years of crossing with Cuban Flint, Yellow Creole, and two of the best white prolific varieties. The result of this is the best yellow corn in the South today and the most prolific. It is a medium size ear, a little larger than Martin's Seven Ear, of a rich yellow color, very similar to Seminole Flint, hard and prolific, very resistant to drought and almost weevil proof.

There has been a great demand for a number of years for a hard yellow prolific corn and we believe that our **YELLOWSTONE PROLIFIC** will fill this requirement. The feeding value of an ear of **YELLOWSTONE PROLIFIC** is higher than an ear of white corn of the same weight and size.

Gave more satisfactory results throughout Georgia and Florida last season and especially in Southern Florida. We have a great quantity booked right now for shipment to the Everglade section this spring

**COTTON SEED**

California Black Eye Seed Cowpeas .....				45c
X Sugar Crowder Peas for Garden.....				50c
Little Lady Cowpeas for Garden .....				50c
Conch or Acre Peas.....				50c

Cowpeas do more for your land than all the Fertilizers that have ever been put on it. Give it a chance to enrich your farm.

Sow at the rate of 1½ to 2 bushels per acre, broadcast.

We are the largest and most extensive handlers of COW PEAS in the State of Florida, and handle carloads of Cow Peas each season that are distributed to the Florida and other Southern Planters. Our knowledge of this item and our immense stock enable us to supply Cow Peas to advantage. We suggest ordering at once as the supply is diminishing.

**CHUFAS**

	Bu.	Peck	Lb.
Chufas .....	4.50	1.25	35c

**PEANUTS**

1½ Bushels of Unshelled Peanuts will plant an acre.

(No. 349) **SMALL SPANISH PEANUTS**—In addition to their value for growing for the nuts, these are very largely used as a forage and fattening crop for hogs and other stock. They are early to mature, very productive and, in the South, where they can be planted, two crops can be made in a year, the tops making a hay crop and the nuts a grain crop. In harvesting, the nuts hang to the vine, and the tops and nuts are fed together to hogs, cows and horses as a whole grain ration. These and Chufas are two of the best crops in the South for fattening hogs, and no Southern farm, where stock is raised, should be without them.

The North Carolina Runner and Small Spanish are planted for hog feed. The Improved Spanish or Valencia is planted for parching or the vendor trade. We are large contractors.

**SORGHUM AND MILLET**

**WRITE FOR QUANTITY PRICES**

**SORGHUM**

Sorghum as a forage crop is considered one of the best staple crops by the Southern Farmer. As a green food it has no equal as it can be cut two or three times during the season and stands the dry weather much better than most of the summer crops.

For Florida and Georgia we recommend the Early Amber Sorghum as it is much earlier than the other varieties and gives a much heavier forage.

**SORGHUM AND COWPEAS**

We strongly urge our customers to make liberal seeding of Sorghum and Cow Peas as this makes a most nutritious Hay; the Sorghum will hold the Cow Peas up and make it much easier to cut, while the Sorghum in this way will not grow to such an extent as to become tough and stalky. The crop should be cut when the Sorghum is just heading out, regardless of the condition of the Cow Peas. Sow at the rate of one bushel Cow Peas and a peck of Sorghum to the acre.

### ATTENTION

#### Market Gardeners, Truck Growers, Large Farmers

We are in close touch with you, understand your soil and climate, and our many years of experience in the State has taught us the needs of the Florida farmer and we are in position to serve you better than any outsider.

We have one of the largest stocks of selected and tested seeds to be found in the South. We know that, quality considered, we can supply your wants at as reasonable prices as any other Seedsman or Grower and can give you quick service. We are here to serve you and hope that you will call on us often.

### JUST WHAT MARTIN'S HY-TEST QUALITY MEANS:

**THIS**—That every pound of seed we send out are thoroughly tested for germination by an expert in the best equipped laboratory in the U. S. and if not found satisfactory they are never put in stock.

While this precaution takes time and money, we consider that is the only manner we can afford to do business, as it is our intention to use every care and precaution to give the Florida Planters the very highest quality seeds; and when we do this, we know that we MERIT THEIR CONFIDENCE AND WARRANT THEIR BUSINESS.
